

Engineer Tariq Al-Qasabi Award for Excellence in Civil Engineering in Saudi Arabia

1- Definition

A discretionary award is supported by Engineer Tariq Al-Qasabi, awarded to outstanding applied scientific research, in the field of civil engineering in all its branches in the Kingdom, and called the award on behalf of:

Engineer Tariq Al-Qasabi Award for Excellence in Civil Engineering in Saudi Arabia

2- The award is:

- / 50,000 SR / (Fifty thousand Saudi riyals).

3- Mission

- Keep up with the global developments in the technical field of civil engineering through applied scientific research, in order to achieve applied scientific excellence.
- Service and development of community through directed scientific research to meet the requirements of industrial development.

4- Objectives

The award aims to:

- Contribution in the development of applied scientific research in the fields of civil engineering in KSA.
- Develop a spirit of creativity and innovation and to stimulate talent and capabilities in civil engineering.
- Strengthening the relationship between Saudi universities and the industrial sectors.

5–Award’s Fields

The award covers the following fields:

- Structural Engineering
- Geotechnical Engineering
- Water resources Engineering
- Environmental Engineering
- Transportation Engineering
- Construction management Engineering
- Surveying Engineering

6–Evaluation criteria

Arbitration of the nominated research for the award according to the following criteria:

- The relationship between the research and the goal of the actual requirements of the community.
- Applicability feasibility of the research findings.
- Take advantage of the available facilities.

7–Terms of participation

First: Researcher

- Only candidates from employees of the Saudi Universities from the following categories: faculty members, researchers or graduate students.
- The research team may NOT participate in more than one research.
- The research team can participate in the award annually.

Second: Research

- Be an applied research and meet the latest quantum leap in addressing the problem in the field of civil engineering.
- The research did not obtain any award from any other awards.
- The search must be performed during the period (1/1/2015 – 1/05/1/2017).

8–Nomination

The nomination file must include the following:

- The nomination form attached
 - Two copies of the research in PDF format, one of them without the name of the researchers.
 - A copy of the first page of scientific papers published and patents (related to the nominated research)
 - The CV of the principle investigator.
-
- Please send nominations to the Head of the Organizing Committee of the Award electronically at the address: alqasbiprize@ksu.edu.sa
 - Receiving nominations stats from 1/11/2016.
 - The deadline for accepting nominations is 1/3/2017 .
 - The award will be presented at the annual ceremony in the presence of the sponsor of the Award during April 2016. The exact date would be announced later.
 - The winner will be notified one week before the date of the ceremony.

9–Board of Trustees

The committee consists of:

- The Prime sponsor of the award. (Head)
- Dean of the College of Engineering (KSU) (member)
- Vice Dean of Graduate Studies and Scientific Research (KSU)(member)

10– Organization Committee

The organizing consists of:

- Chairman of the CE Department (KSU) (Head)
- Head of Research Unit at the college of Engineering (KSU) (member)
- Faculty member-CE Department (KSU) (member)

For inquiries please contact the Head of the Scientific Research Unit at the college of Engineering at King Saud University:

Prof. Dr. Hasan Bilani
